

READ ENTIRE MANUAL BEFORE OPERATION to ensure proper use and care of your new Lezyne Power Pack.

## Warnings

Lezyne power packs have a water resistance rating of IPX7 under IEC standard 60529. Submerging the device is not recommended. If moisture does enter casing, Do not turn on, air out until completely dry.

DO NOT ATTEMPT TO REMOVE ELECTRONICS. Doing so will void the warranty.

Lezyne USA, Inc. does not accept any liability for injuries or other damages resulting from the improper use or improper installation of this product in any circumstance.

## Warranty

Lezyne Batteries carry a six (6) month warranty from the original purchase date. Lezyne warranties cover any manufacturing defects in materials or workmanship. Issues not covered under warranty include normal wear & tear, improper installation, attempting to access or modify electronics, damage or failure due to accidents, misuse, abuse and/or neglect.

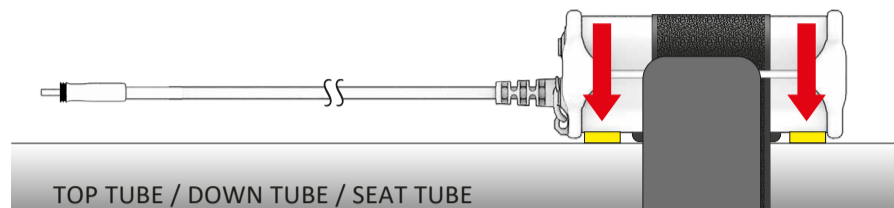

For all warranty issues worldwide, please contact the retailer that sold the product.

For warranty queries contact: [warranty@lezyne.com](mailto:warranty@lezyne.com)

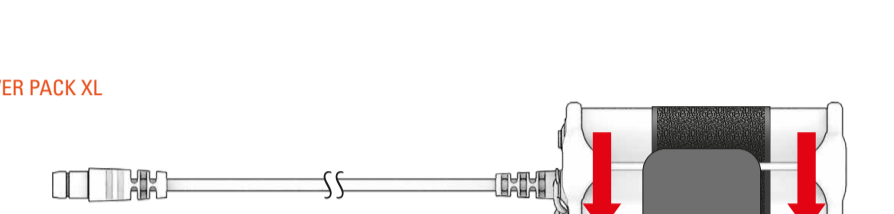

## Mounting

For proper mounting ensure rubber pads are in contact with frame. Then fasten the Velcro strap firmly.

**THERMAL PROTECTION:** Power packs have built in thermal control, if used in overly hot environments the pack will disable output until temperatures return to normal.

## Battery Indicator

When powered off, click button once to momentarily display battery status.

## Charging

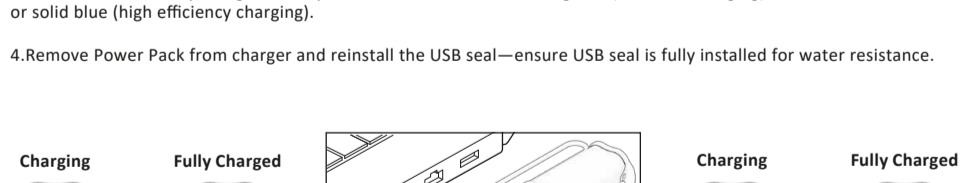

Before using your Lezyne Power Pack for the first time, fully charge battery. Ensure Power Pack output cable is unplugged from LED light.

1. Open the USB seal on the Power Pack.
2. Insert the USB-C charging cable into the Power Pack charging port.
3. Once charging, power button will flash blue or green depending on power source.

If power button does not flash when plugged in, selected USB port may not be powered—try another USB port.

Power Pack will be fully charged when power button illuminates solid green (standard charging), or solid blue (high efficiency charging).

4. Remove Power Pack from charger and reinstall the USB seal—ensure USB seal is fully installed for water resistance.
